# Challenges in a Short Timescale

- Premises
- Staffing
- Publicity
- Base line figures
- Funding

# MAGIC MONEY

Imagine you and your group are in charge of a pot of money within a local authority, public or voluntary sector organisation (£200,000)

The purpose of the fund is to tackle youth related anti social behaviour within the local town centre over three years. How would you distribute the fund or what new measures would you introduce.

Bearing in mind you wish the fund to have a lasting impact beyond the three years.
