# **Fleet Asset Management**

# What is asset management ?

“Systematic and coordinated activities and practices through which an organization optimally and sustainably manages its assets and asset systems, their associated performance, risks and expenditures over their life cycles for the purpose of achieving its organizational strategic plan”

# **My Definition “Good Housekeeping”**

For many local authority contracts transport represents 25% of their contract costs!

# How do you manage this valuable asset?

- Accurate, dynamic and detailed asset register
- Fleet Policy document
- Standardisation policy
- Planned replacement programme
- Corporate livery

# How do we make sure others look after it?

- Driver training and daily checks
- Compliance checks
- Insurance accident management
- Driver licence checks
- Strict enforcement

## How do we maintain it?

- Clearly established maintenance regime
- Do not over maintain
- Strict compliance with service schedules
- Well trained staff, well managed workshops

# How do you make best use of your fleet?

- Fleet utilisation
- Monitoring downtime
- GPS systems
- Monitor and manage external hire

# Summary

- New vehicles quickly in to service
- Fleet assets utilised to full capacity
- Managed and maintained to the right standard
- Old vehicles quickly disposed of

## Good Housekeeping
