Local Government in Wales -
We have entered our Surrealist Moment.
Steve Thomas CBE - WLGA

Our First Minister Carwyn Jones departs and so does every one else!
Local government reorganisation in Wales enters the Guinness Book of World Records for “Pissing about for a decade”.

“The most dangerous thing in a combat zone is a General with a map”

*Making the Connections*: Delivering Better Services for Wales, October 2004
5 year action plan

*Delivering the Connections*: From Vision to Action, June 2005

*Local, Regional, National: What services are best delivered where? (the ‘Simpson review’)* March 2011

*Williams Report - Commission on Public Services Governance and Delivery* (April 2013-January 2014)
White Paper *“Reforming Local Government”* (July 2014)
Invitation for voluntary merger proposals (September 2014)
White Paper *Reforming Local Government* (February 2015)

*Draft Local Government Bill* (November 2015)

Sir Paul Williams argued for 10, 11 or 12 Councils in Wales.

Leighton Andrews raised 6 as possibility but settled on 8 (The old counties).
The Heinz 57 Varieties of Reorganisation - Green Paper & CBI

[Map of Wales showing regions like Conwy & Denbighshire, Flintshire & Wrexham, Gwynedd & Ynys Mon, Powys, Dyfed, West Glam, Mid Glam, Upper Gwent, Lower Gwent, South Glam, North Wales, Mid Wales, Swansea Bay City Region, Cardiff Capital Region]
Single merger programme
- What next?

DEAD AND BURIED
Local government in the driving seat

A single comprehensive merger programme completely rejected and opposed by the WLGA leadership especially the wonderful Councillor Debbie Wilcox.

Currently no support across the Welsh Assembly

New forum chaired Derek Vaughan MEP (former WLGA leader) to take forward examination of reform

Voluntary mergers still an option. Some thoughts on national shared services??

What will be the view of the new First Minister and what will be the view of WLGA leaders?

Does it matter? The real challenge is austerity.
Councils developing their own regional structures

Growing Mid Wales

Welcome Croeso to the Cardiff Capital Region
Population 1.5 Million
There was no such thing as austerity – Britain still isn't living within its means

What does it mean for the public realm? The decline of community facilities.

**Isle of Anglesey Council**

Number of public toilets

2010: 38

2018: 16

Reduction of 22

**Powys County Council**

Number of public toilets

2010: 48

2018: 2

Reduction of 46
Return of our old friend the “Elephant in the room”

By 2021 The NHS in Wales could swallow up 57% of the Welsh Government budget
For Wales, the Health Foundation has projected that NHS funding needs to increase by 2.9% a year through the 2020s to meet cost and demand pressures, assuming that it makes 1 per cent new efficiency savings each year. **Spending on local authority adult social care would need to increase by 4% a year in real terms.**

In hard cash Local authority adult social care expenditure (older and younger adults) would need to increase by about 75% by 2030-31 (an increase of around £890 million, from £1,180m to over £2,000m).
Happily there are solutions and they can be found in our wallets!

- Professor Gerry Hotham's proposed social care levy in Wales, creating a funded contributory system for older people’s care.
- Changing the devolved Welsh rate of income tax by 1p across each band, for example, could lead to an increase in the Welsh resource budget of around £200 million a year.
- Teresa May has announced/promised £20bn for the NHS. This will lead to a Barnett consequential of about £1.4bn. Unlike England, in Wales social care will get a slice of this.
The inevitable Brexit Slide - toxicity and torpor

- Wales in receipt of structural funding for the Valleys and West Wales up to 2020. Of the £1.8bn committed. Rural Wales badly affected.
- Money needs to go to the local level
- What will the shape of a new Shared Prosperity fund look like?
Digitalisation - the next stage in service evolution
The sustainability of Councils – where are you?

WHAT'S YOUR OPERATING MODEL?

• **Adaptive innovation**: organisations creatively redefine their role and are able actively to affect their operating environment, working in close partnership with others and looking for new opportunities

• **Running to stand still**: organisations are led and managed well and can see a positive future, provided that they can keep up the current pace and that there are no major shocks

• **Nostril above the waterline**: organisations are only able to act with a short-term view, their existence is hand to mouth and even a small external change might seriously challenge their viability

• **Wither on the vine**: organisations have moved from action to reaction. Their finances and capacity are not sufficient to the task and they are retreating into statutory services run at the minimum levels or handing back the keys
Conclusions

• Despite the scale of cuts councils doing great work – a force for good

• Time to end austerity

• Local authority sustainability over time

• Local authority role in promoting economic transformation

• Need to make a clear case for preventative services from public toilets to parks

• While the commentariat has entrenched itself within its respective Remain and Leave camps, the public has been getting on with their lives, dealing with the everyday concerns that make things that little bit more difficult. There will be a reckoning at some point on the decline of the public realm and what it means.
