I need your help!

- Case study – Birmingham City Council (BCC)
- How has GM budget for parks changed since 2013?
- **KEY QUESTION** – are parks budgets being treated differently?
 - How does this compare to other budgets within BCC?
 - How does this compare with the overall BCC budget
- Ideally, need data from other LAs to show BCC is not unique
- Big thank you to the LAs who have already expressed an interest in helping me
- Can you help?
