

APSE Energy & Taking Action on Fossil Fuels

Charlotte Banks, APSE Energy

APSE Energy

- APSE Energy provides support across a range of topics
- Assisting local authorities in the energy, sustainability & climate change agenda

4 Main Areas

- Advocacy
- Knowledge
- Learning
- Consultancy

Local Authority Assets

Common assets

- Leisure centres
- Town hall
- Land
- Fleet
- Community halls
- Commercial properties

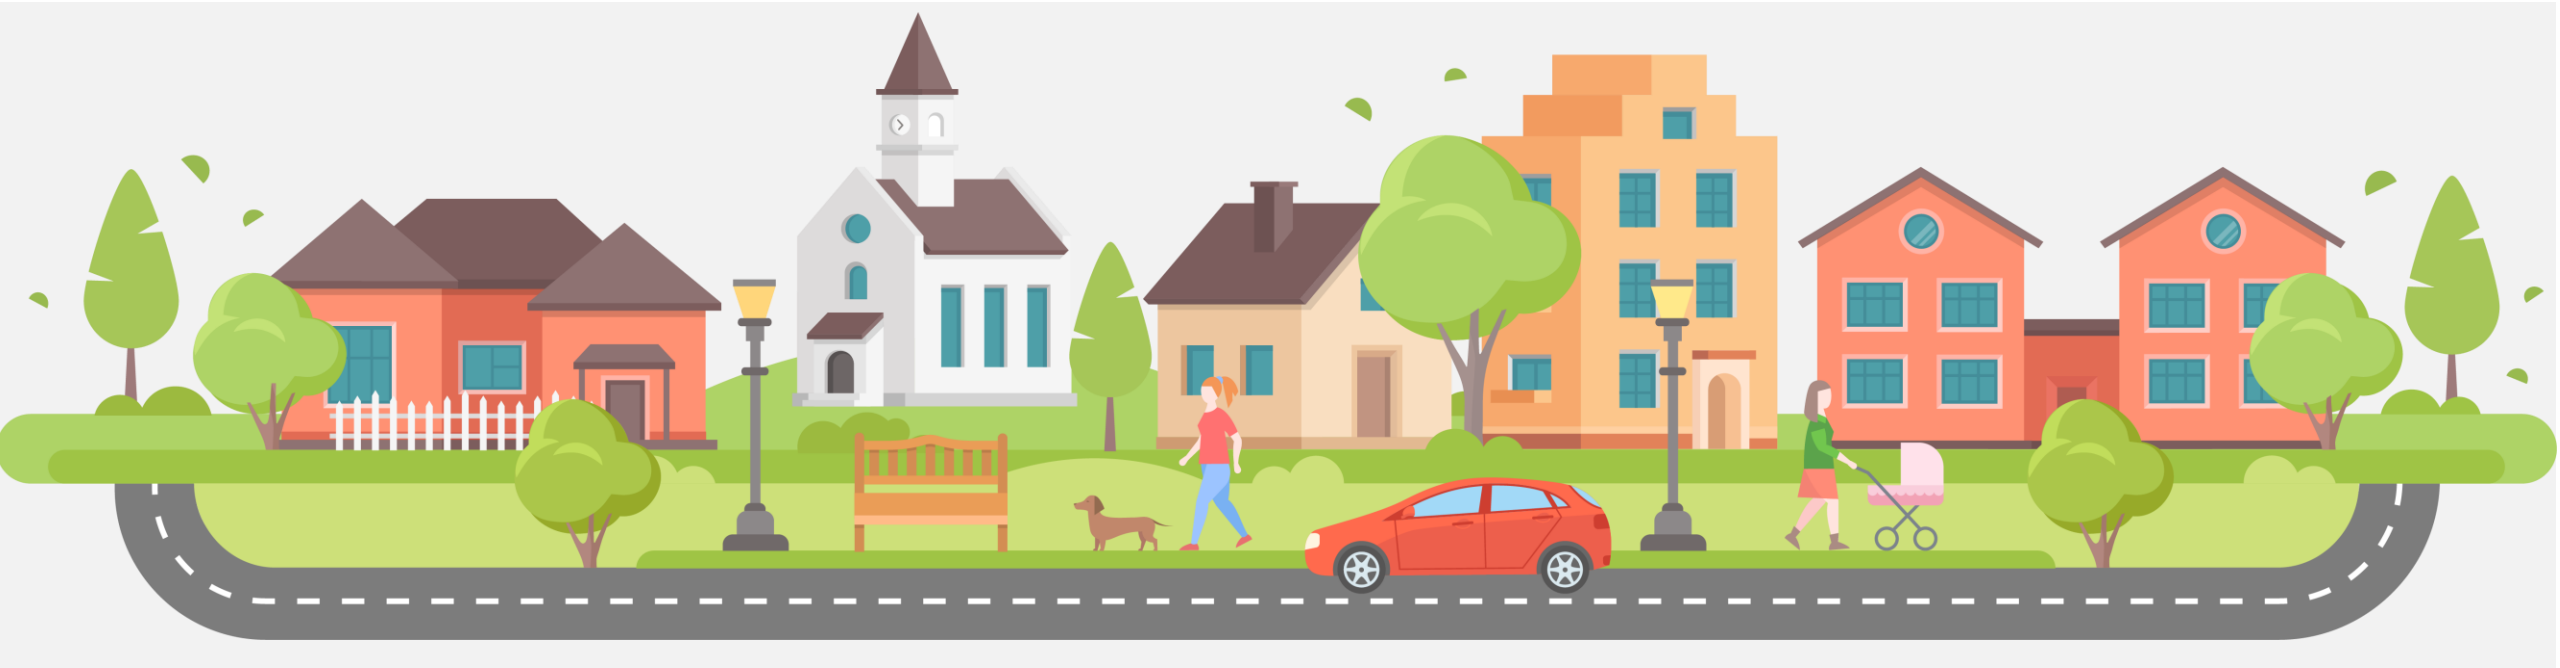

Think about assets you don't own

- Rent roof of 3rd party buildings
- Land outside of your area

Smaller assets

- Boilers
- Heating systems

Buildings

Retrofit

- Condition of existing houses
- Domestic heat

New Build

- Building standards
- Passivhaus
- Swansea Standard

Planning Documents

We have recently done work with a couple of councils to help them embed sustainability, climate change and energy into their local development plan

Monitoring & Data

- Carbon footprinting – we can help you with putting a carbon footprint together as a baseline for future monitoring
- Carbon budgeting - need to start looking at carbon budgets like financial budgets

Carbon Literacy Training

- Led by APSE Training
- Information on the APSE [Website](#)
- Carbon Literacy training provides support and information which helps officers and councillors to make a meaningful contribution to the climate agenda

“The course was really thought provoking and was delivered in a very engaging way - I’ll be recommending to colleagues with a similar portfolio at other local authorities.”

Member Champion for Climate Change, London Borough of Barking and Dagenham

“It’s a great way to get a grounding in some of the science behind climate change and the need for urgent action as well as helping to start formulate those actions.”

Principal Sustainability Consultant, Cambridge City Council

Thank you!
