

APSE Energy Summit 2026

Andrew Williams

Verture

Thursday 22nd October 2026

verture

What was Creative Climate Futures?

- A project devised and initiated by Verture.
- A project to support local climate action in Glasgow – adaptation, as well as mitigation
- Focus on collaboration, co-design, creativity, and climate justice
- Neighbourhoods chosen to demonstrate risks from local flooding and urban heat

How did we build systemic change?

- Centre local community voices
- Use creativity as a tool to unlock change
- Stories, not statistics
