ZERO WASTE TASKFORCE

- COSLA-Scottish Government
- ZWS, SEPA, Scottish Enterprise, HIE, Scotland Excel
- Supported by SOLACE, waste managers network

The Scottish Government

ZERO WASTE TASKFORCE

Mission Statement

“The Taskforce will agree a series of recommendations to create the conditions to transform the management of public sector waste into an effective feedstock for an economy that has high community participation in recycling; supports the emergence of new industries; maximises cost benefit to local authorities; and de-risks public and private investments.”

The Scottish Government

Three workstreams

- Communications
- **Systems** – policy levers, participation, collections
- Contracts

The Scottish Government

ZERO WASTE TASKFORCE
RECOMMENDATION:

**A voluntary, best practice
charter for more consistent recycling
collections**

The Scottish Government

A Recycling Charter for Scotland (working title)

- Service design
- Policies
- Service operation
- Communications

Wikipedia says:

The circular economy is a generic term for an industrial economy that is, by design or intention, restorative and in which material flows are of two types, biological nutrients, designed to re-enter the biosphere safely, and technical nutrients, which are designed to circulate at high quality without entering the biosphere.
