

Introducing the Sustainable Scotland Network

Thursday 14 November 2013

Kim Young,
Sustainable Procurement Lead, Sustainable Scotland Network

Kimberley.young@keepsotlandbeautiful.org

Overview

- What SSN is
- What we do
- Who our members are
- What sustainability is and how it is important for facilities management
- Our programmes
- How we can help you/ how you can get involved

**Keep Scotland
Beautiful**

Who We Are

**Local
Environmental
Quality /
Environmental
Services**

**Sustainable
Development
Education**

**Sustainable
Development
& Climate
Change**

THE KSB BRAND FAMILY

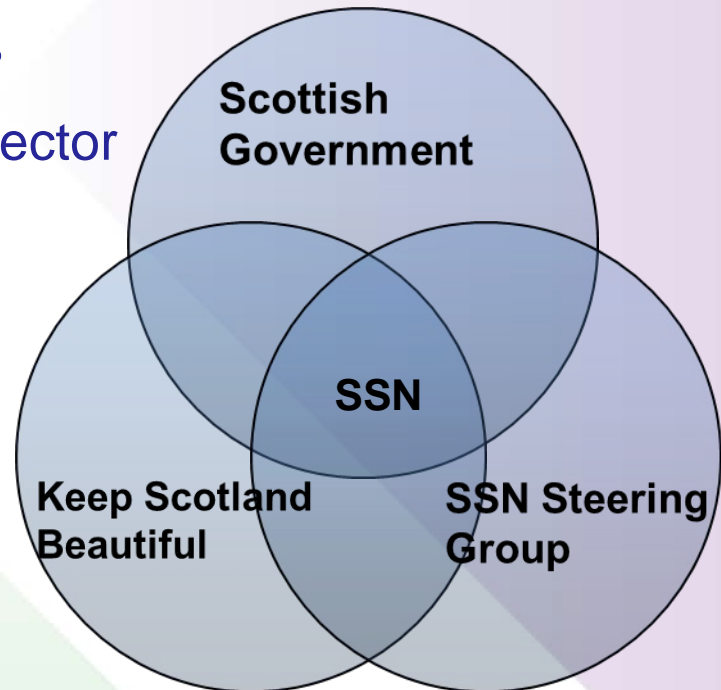

Keep Scotland Beautiful is the independent charity which campaigns, acts and educates on a range of local, national and global environmental issues which affect people's quality of life. It is committed to making Scotland clean and green, today and tomorrow.

Who We Are

- Almost 250 members
- Representatives from all 32 local authorities
- Representatives from over 50 other public sector organisations
- Members include sustainability and environmental officers, procurement officers, facilities managers

What We Do

- National networking and collaboration
- Weekly Newsletter
- Quarterly Network Meetings
- Annual Conference
- Website: www.sustainable-scotland.net
- Training
- Best practice sharing
- Knowledge Hub
- Sustainable Procurement Working Group

Sustainable Development

Brundtland Commission's 'Our Common Future' Report, 1987:

Sustainable development is development that meets the needs of the present without compromising the ability of future generations to meet their own needs

Living Within Environmental Limits

Respecting the limits of the planet's environment, resources and biodiversity – to improve our environment and ensure that the natural resources needed for life are unimpaired and remain so for future generations.

Ensuring a Strong, Healthy and Just Society

Meeting the diverse needs of all people in existing and future communities, promoting personal wellbeing, social cohesion and inclusion, and creating equal opportunity for all.

Achieving a Sustainable Economy

Building a strong, stable and sustainable economy which provides prosperity and opportunities for all, and in which environmental and social costs fall on those who impose them (polluter pays), and efficient resource use is incentivised.

Promoting Good Governance

Actively promoting effective, participative systems of governance in all levels of society – engaging people's creativity, energy, and diversity.

Using Sound Science Responsibly

Ensuring policy is developed and implemented on the basis of strong scientific evidence, whilst taking into account scientific uncertainty (through the precautionary principle) as well as public attitudes and values.

to focus the Government and public services on creating a more successful country, with opportunities for all of Scotland to flourish, through increasing sustainable economic growth.

STRATEGIC OBJECTIVES

Delivery of the Purpose requires the development of a country that engenders individual and collective success. This is encapsulated in a set of five **Strategic Objectives** (set out below) which map a Scotland that is wealthier and fairer, smarter, healthier, safer and stronger, and greener.

WEALTHIER & FAIRER – Enable businesses and people to increase their wealth and more people to share fairly in that wealth.

SMARTER – Expand opportunities for Scots to succeed from nurture through to life long learning ensuring higher and more widely shared achievements.

HEALTHIER – Help people to sustain and improve their health, especially in disadvantaged communities, ensuring better, local and faster access to health care.

SAFER & STRONGER – Help local communities to flourish, becoming stronger, safer places to live, offering improved opportunities and a better quality of life.

GREENER – Improve Scotland's natural and built environment and the sustainable use and enjoyment of it.

Defining Sustainability- Consumption

How Does this Affect You and Me?

Zero Waste (Scotland) regulations 2012

- Come into effect from 1 January 2014
- Waste needs to be segregated

School Meals

- How can they be healthy, sustainable and not cost the earth?

Cost of energy

- Cost of heating, lighting and hot water

Climate Change Adaptation

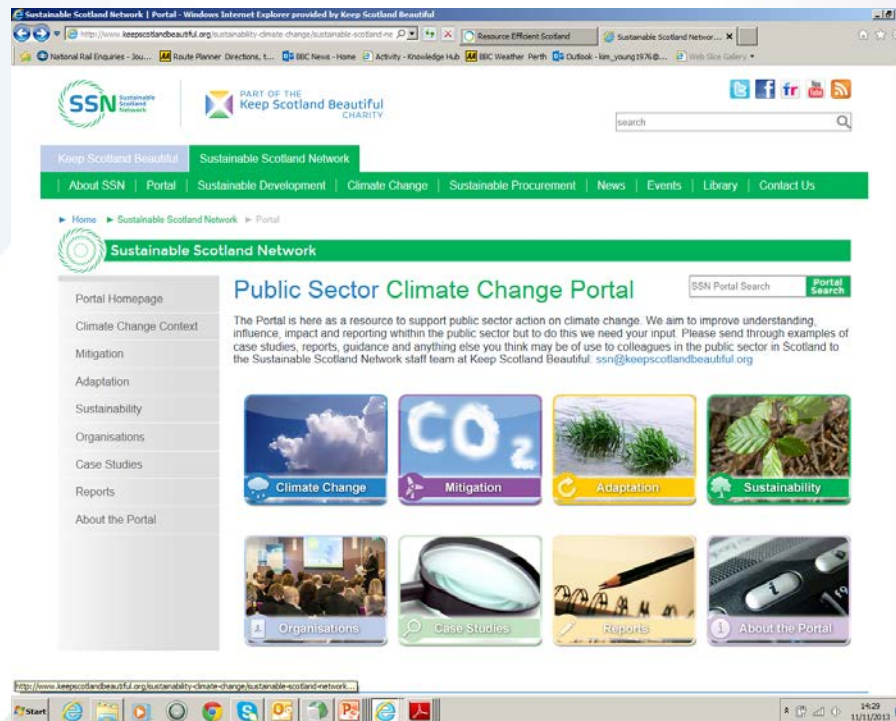

- How to deal with extreme weather events, fluctuating food prices etc

How can services be provided in a way that uses less resources, less energy, but still deliver quality and value for money?

What can SSN Offer?

Climate Change

- Climate Change Portal www.sustainable-scotland.net/portal/

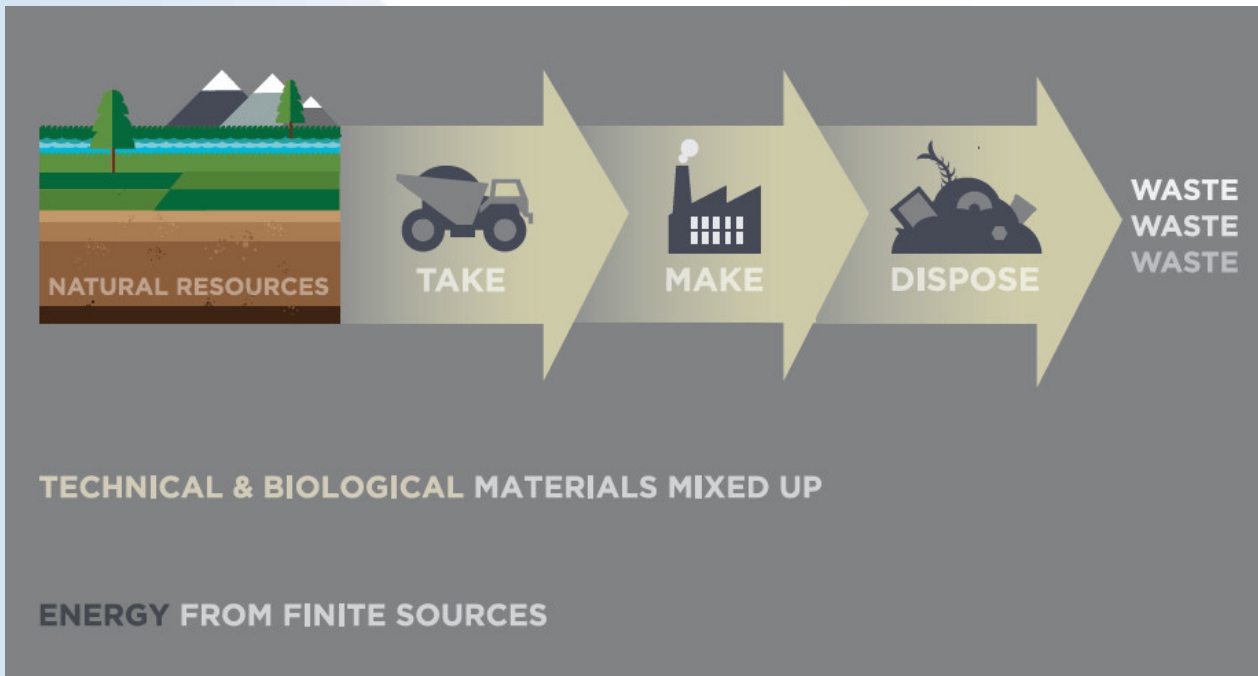

What can SSN Offer?

Sustainable Procurement

- Sustainable Procurement Working Group
 - Timber
 - Food and Catering
 - Fair and ethical trade
- Sustainable procurement web pages

Resources

The screenshot shows a web browser window titled "Facilities Management Procurement Toolkit | WRAP UK - Windows Internet Explorer provided by Keep Scotland Beautiful". The address bar shows the URL: <http://www.wrap.org.uk/content/fm-client-procurement-toolkit-0>. The website content includes a navigation menu with options: HOME, ABOUT WRAP, WHO WE WORK WITH, WHY IT MATTERS, MEDIA CENTRE, and Around the UK. The main heading is "Facilities Management Procurement Toolkit", followed by a description: "This toolkit provides information, guidance and templates to assist you with realising cost and material savings by improving the resource efficiency of your FM services. Use the hotspots to explore the toolkit." Below this are nine red "hotspots" with circular icons and images: Clients, Service providers, Maintenance, Catering & food services, Furnishing services, Waste management services, Uniform & laundry services, and ICT services. A small tooltip over the "Waste management services" hotspot reads: "Use the hotspots to explore our procurement guidance." At the bottom, there is a note: "If your browser prevents you from accessing the links, please use the following links: Clients: Find out about procurement strategy, key questions to ask your service providers and download example KPIs." The Windows taskbar at the bottom shows the Start button and various application icons, with the system clock displaying 10:12 on 12/11/2013.
