WARD PARK - A NEW VISION CONCEPT DESIGN MASTERPLAN AND VISUALS

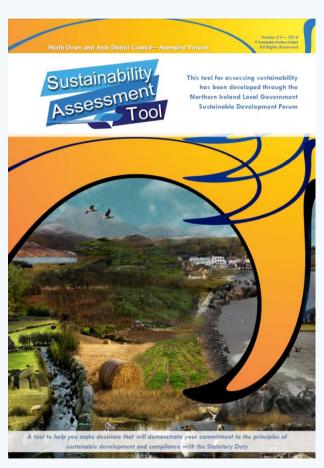

Sustainable Development & AND

- Centralised function sits under compliance but operates across the Council
- SD and EMS integrated as both cover whole of the organisation
- SD aligned with policy and equality to help embed it
- Integrated during the shadow year of AND

www.ardsandnorthdown.gov.uk

Sustainability Assessment Tool

Policies screened –
 30 policies screened with the SAT and some mitigation measures
 recommended

Community Planning and SD

- It is about holistic thinking about the needs of the Ards and North Down Borough irrespective of 'who is responsible for what'.
- It is about making sure that organisations work together, with local people, to improve all aspects of local life.

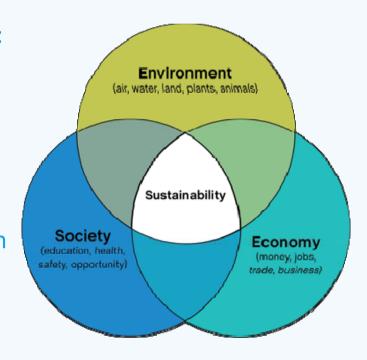

Community Planning and SD

Community planning for a district is a process by which the Council and its Community Planning partners –

- Identify long term objectives for improving:
 - Social wellbeing of a district;
 - Economic wellbeing of a district; and
 - Environmental wellbeing of a district;
- Identify long-term objectives in relation to the district fir contributing to the achievement of sustainable development in NI; and
- Identify actions to be performed and functions to be exercised.

Integrating SD into Community Plan

- Sustainability appraisal incorporating Strategic Environmental Assessment – making sure something is not bad as opposed to ensuring it is good!
- Ards and North Down's Community Planning structure integrated sustainability into its third tier

www.ardsandnorthdown.gov.uk

Tier 3 – Governance and Scrutiny

- Cross-cutting issues
 - Rural Proofing
 - Equality
 - Good Relations
 - Performance Management
 - -Sustainability

Initial Emerging Priorities

Top 10 issues, in rank order, identified during conversations 1-3

Rank	Social	Economic	Environmental
1	Isolation – rural isolation as well as elderly isolation	Up skilling and employability and education	Protecting of natural environment and biodiversity
2	Transport links – access to communities and quality of rural transport	Tourism – utilise existing assets and benefits	Better use of green spaces and greenways, walking routes – access to the environment
3	Early interventions (health, education and crime)	Support for business start ups	Local environmental quality issues
4	Mental Health	Attracting high quality jobs and businesses	Community engagement and local projects
5	Volunteers – recruitment and support. Social Capital	Encourage entrepreneurs	Climate change
6	Employment opportunities	Digital infrastructure – IT Broadband	Civic Pride
7	Educational underachievement and increased opportunities for life-long learning	Social economy opportunities	Coastal erosion
8	Leisure and culture – used of green spaces to improve health and wellbeing	Apprenticeships and vocational training	Environmental education
9	Shared spaces and better access to services for everyone - equality	Our unique selling point – capitalise on this	Pollution – air, land and water
10	Health interventions and health inequalities	Alternative job opportunities – business landscape is changing	Planning used to protect built and natural environment
