

## Principles of Contract Management

84%

Overall

It gives you a much better understand of what to consider when setting up a contract, how to monitor it effectively, and options for dealing with performance issues before termination, which is the last resort.

Waste & Recycling Officer  
Hart District Council

It does what it says - takes you through the main elements we need to have right in public sector contract management.

What is a contract, why they are framed as they are and the limits and opportunities they present to deliver what we need / want from them.

Corporate Sustainability Officer  
Bat & North East Somerset Council
