

Modernising Winter Service Delivery

- Fleet Management
- Street lighting, Signs, Signals and CCTV
- Street Works and Permits
- Civil Parking Enforcement
- Traffic Management

- Winter Services

What do “Winter” do in the summer??

Carl Gillyon | Head of Highway Network Management

EAST RIDING
OF YORKSHIRE COUNCIL

Modernising Winter Service Delivery...

...The Climate Keeps Changing, So Do We!!

Ben Towse | Senior Engineer

The most dangerous phrase in the language is, “We've always done it this way”

Rear Admiral Grace Hopper

Get The Basics Right.. And Then Some!!!!

- Join National Winter Service Research Group (NWSRG).
- Training
- Forecasting
 - Forecaster and weather station data
 - Route Based Forecasting
- Equipment –
 - Auto salting
 - Advanced treatments

NATIONAL WINTER SERVICE RESEARCH GROUP

Brine Production and Added Resilience

Greater Efficiency and Coverage

- Increased brine capacity extends vehicle treatment range.
- Retro fitted front tank
- Allowed for Secondary Network trigger point change

Current/Future projects

- IoT weather sensors.
- Evaluating FS50 brine.
- Real-time route updates/ IntelliOpps
- Redevelop the Winter Team to form an All-Round Resilience Team

Thank you for your time
