Prospectus

A POWERFUL PROSPECT

1. Introduction

The price of energy and the security and sustainability of energy supplies are among the defining issues of our time. The impact on hard pressed communities, businesses and local authorities is enormous. Local authorities already struggling to manage huge reductions in budgets and maintain front-line services also have to address the implications of climate change and create resilient local places and economies.

Councils are significant users of energy and emitters of CO2. The Carbon Trust estimates that their total energy consumption is at least 26 billion kWh each year. This leads to annual CO2

Terms and conditions of APSE energy membership

APSE energy membership application form

The logo for APSE, featuring the word "apse" in a bold, white, lowercase sans-serif font, enclosed within a thin white oval border.

**I have read the terms and conditions and we wish to become members of
APSE Energy**

Name of organisation: _____

Name of officer completing this form: _____

Conclusions

- this is a once in a lifetime opportunity;
- it if is not supported it will not go ahead;
- details from Mark Bramah
- lets go for it!

Public Sector Energy is a new service to keep everyone in the public sector up to date on what is happening in the green agenda.

It is focussed on delivery of renewable energy and energy efficiency projects, rather than the theory of what might work.

Every week you will get an email that draws together in one place all the stories that you need to know about, together with some advice and guidance from Stephen Cirell.

It is completely free, you just need to register with

www.publicsectorenergy.co.uk
